Profile

I consider myself a creative person, who knows how to work under pressure and fast learning. I like challenging jobs and learn new things all the time. My greatest hobby is creating music and producing it for others.

Studies

- **Title: Mechatronics Engineering**
Centro De Enseñanza Técnica Industrial (CETI)
Year: 2014-2018 Guadalajara-Jalisco
- **Title: Mechanical technologist in machine-tools**
Centro De Enseñanza Técnica Industrial (CETI)
Year: 2009-2013 Guadalajara-Jalisco

TECHNICAL PROFILE

Software development languages: Programming in C (C#, C++ and C), JAVA, notions of web development, databases and GIT hub

Platforms and equipment: *ICT* (Checksum, Keysight Agilent) basic maintenance, debugging and repairs, *AVI* (Aleader) basic debugging, *CNC* (Fanuc, centroid, haas, biesse) basic operation and programming, **functional test equipment** (radio frequencies, programming, vision and mechanical simulations) maintenance, repair and debugging.

Design and simulation programs: Solid Works, Camworks, NX, some electronic and pneumatic simulation software

WORK EXPERIENCE

TATA Consultancy Services

From 25/02/2020 to present Guadalajara-Jalisco

Position: Engineer in Systems.

Functions:

- Data handling.
- Constant training in workflows and programming tools.

JABIL Guadalajara

From 23/01/2017 to 01/06/2019 Guadalajara-Jalisco

Position: Test engineer technician.

Functions:

- Personnel management
- Administrative tasks for handling and documentation of equipment.
- Analysis and implementation of Kaizen improvements related to the measurement systems, and direct support to the control of these.
- Diagnosis, maintenance and repair of test equipment.
- Diagnosis of failed drives.
- Support to various tasks in the area of engineering.

Ofiplan Velasco, S.A. de C.V.

From 29/04/2016 to 29/08/2016 Guadalajara-Jalisco

Position: CNC Router Operator.

Functions:

- CNC operation.
- Measurement and verification of parts.
- production.

In addition, I've worked in cnc design, programming, and manufacturing temporarily in, "Taller Industrial Velasco", "Amano" or with independent projects.
